

Please DO NOT weaken NJ's DO NOT CALL law. I am a senior citizen who sometimes (because of medical reasons) has trouble getting to the phone. It infuriated me when in the past, it was a marketer. Thankfully, that has tapered considerably.

Now, tackle the next challenge!!!! I receive unsolicited faxes. I don't know how I got on these marketers lists & when following their directions to call an 800 number to be removed, I think that just triggers me to go on another list. The phone rings throughout a 24 hr. a day period & you darn near have a heart attack when it jangles you out of bed at 3 in the morning.

There should also be an unsolicited fax "Do Not Call" law also. I wonder who the lobbyists are that are weakening the present law??? thank you for your attention to this matter.
